

02 / WHAT I'VE DONE

WORK WITH A POINT OF VIEW.

Biomedical engineer and technology builder working across aerospace, healthcare, artificial intelligence, and humanitarian infrastructure.

[↓ DOWNLOAD RESUME](#)

01 Experience

[Skip to content](#)

JUNE 2026 - PRESENT

INO

IAN ORTEGA

Digital Leadership Development Program Associate

Building digital technology inside a global aerospace and defense organization.

- Rotational leadership work focused on digital technology and business impact.

MAY 2025 - AUGUST 2025

Collins Aerospace

AI Engineering Intern

Applied artificial intelligence in an aerospace engineering environment.

- Contributed to AI engineering work within an RTX business.

MAY 2024 - AUGUST 2024

GE HealthCare

Edison Hardware Engineering Intern

Connected hardware engineering with clinical technology.

- Worked in a healthcare engineering environment where technical decisions meet clinical needs.

JANUARY 2021 - MAY 2022

Computational Prototyping and Research Center

CAD Modeler & Simulation Analyst

Developed early experience in technical modeling and simulation.

[Skip to content](#)

Supported CAD modeling and simulation analysis for research and prototyping work.

02

Research

AIM PROGRAM / 2025

NASA Technical Literature Retrieval

Co-developed and published a hybrid retrieval system combining BM25, dense vector embeddings, and Reciprocal Rank Fusion across fragmented NASA literature repositories.

[READ PUBLICATION ↗](#)

FOLLOW-ON RESEARCH

HyDE Retrieval Research

Continued research through the Accelerating Ingenuity in Markets Program, investigating Hypothetical Document Embeddings for technical information retrieval.

03

Education

Marquette University

B.S. Biomedical Engineering
Minor in Computer Engineering

2026

3.9 GPA
Accelerating Ingenuity in Markets
Program / FinTech

04

Leadership

AUGUST 2024 - PRESENT

Project Lead, Marquette Service Engineers

Leads multidisciplinary design for a potable water system serving more than 3,700 residents across Cruz Chich and Chumisa, Guatemala.

SEPTEMBER 2022 - JANUARY 2024

Skip to content

Without Borders

Served as CAD Team Sub-Lead and chapter Treasurer, supporting water infrastructure design and civil stewardship.

05

Skills

Artificial intelligence

Information retrieval

Python

Data engineering

CAD

Simulation

Biomedical engineering

Hardware engineering

Project leadership

06

Recognition

- 01
- Selected 2026 undergraduate commencement speaker
- 02
- First place, 2025 Marquette Invitational - Kynetics
- 03
- SIIM Hackathon 2025 Award and Mentor
- 04
- SIIM Hackathon 2024 Winner
- 05
- Certified SolidWorks Associate

Why fit in, when you can fit out?
